MURDER CASES ON DOCKET

For Trial At February Term of Circuit Court Which Begins Here
Next Monday Morning

Circuit Court begins Monday next and the indications are that this will prove one of the busiest sessions that has been held here in some time. There are only two weeks allowed for court here during the February term and there is a lot of business on both the criminal and civil dockets.

Two murder cases are set for trial at the present term of court. The trial of Ethridge Alford who shot Oliver Smith to death near McKinney last summer is docketed for the present term and Joe Hocker who killed Bob Gardner, another negro, in the Hubble section a few months ago, is also to be tried. There are some 10 or a dozen felony cases on the docket, which will also be hard fought and occupy much of the court's time. A number of civil actions have been filed also so that Judge Hardin and the other court officials will probably be kept very busy every day of the two weeks' session.

Peter Goss, of Whitley county, through his attorneys Morrow & Morrow and Robert B. Waddle, of Somerset, has filed suit against the L. & N. railroad for \$3,000 damages, for injuries alleged to have been sustained while he was a passenger on the train between his home and Junction City. He alleges that by a jerk of the train he was thrown against a seat and his abdomen and bowels were injured.

W. P. Newell, who lives near Moreland, has filed suit against the Cincinnati Southern railroad for \$1,000 damages to his property alleged to have been done by the railroad in the process of making a fill near his place. Attorney P. M. McRobert represents Mr. Newell.

Quite a number of divorce cases have been set for trial during the present term of court. Through Attorney J. N. Menefee, Jr., L. T. Smith filed suit for divorce from his wife Ellen Smith. Alfred Coffman also asks legal separation from his wife Addie Coffman.

Attorney George D. Florence has filed suit for divorce for Fields Salter a well known local colored man from his wife Ellen Salter, alleging abandonment.

Attorney T. J. Hill, Jr., brought an action for divorce on behalf of Kenton Singleton against Florence Singleton. They were married in 1900 and the charge is made that she abandoned him in 1914. There is a son eight years of age of whom he asks the custody.

Walter Yates filed suit through his attorney, J. N. Saunders, for divorce from his wife, Lizzie Walls Yates. The petition alleges that they were married September 1st, 1912, and that she abandoned him on that same day.

Suit for divorce has been filed by Lucy Lawson against Harry Lawson, who is now in Bourbon county. Abandonment is the charge. K. S. Alcorn is her attorney.

Ella Long Schaffler has filed suit for divorce against Harry Schaffler, on grounds of cruel and inhuman treatment. W. B. Hansford is her attorney.

THE JOHN SPEARS SALE.

The sale of John Spears, near Hustonville, on last Saturday, Feb. 12th, was well attended and with John B. Dinwiddie as auctioneer, everything sold well. Following is a partial list of stock sold: One pair of 7 and 8-year-old mules to W. M. Fields, for \$175; one pair of 4-year-old horse mules to Will Neal for \$303; one pair of coming 2-year-old mules, to Tom Crawford, for \$298; one 2-year-old horse mule, \$90; one coming 2-year-old mare mule for \$112; one 6-year-old bay horse, by Dignity Dare, withdrawn at \$135; one coming 3-year-old jack to Ben Price, of Milledgeville, for \$75; one red gilt, ready to farrow, W. B. Noel, for \$23.25; one red gilt, ready to farrow, to Will Stagg for \$24.60. The farm was withdrawn at Eugene Dunn's bid of \$1,950. Mr. Hughes, of near Lancaster, was on hand and purchased several head of hogs, also a sow and nine pigs, that cost him close to forty dollars. Farming tools sold fairly well; good prices were realized on several buggies; cows brought good prices.

What Children Need Now.

In spite of the best care mothers can give them this weather brings sickness to many children. Mrs. T. Neureuer, Eau Claire, Wis., writes: "Foley's Honey and Tar cured my boy of a severe attack of croup after other remedies had failed. It is a wonderful remedy for coughs, colds, croup and whooping cough." It stops lagrippe coughs. Sold everywhere.

ELECTION CALL ANNULLED

Petitions Asking For Vote On Road Bonds Lacking in Names

The road bond election called by Judge Bailey Monday for April 15th, has been called off. The order of the county court fixing the date for the election, was set aside when it was found that the petitions filed here Monday do not comply with the law. It was found that the names of "freeholders" on the petitions were not sufficient in number under the law to call an election. The law requires that a petition shall be signed by at least 150 "freeholders," and by that is meant property owners, to make legal a call for such an election, and the petitions filed here Monday did not contain the names of 150 property owners. Over 160 names were on the petitions but many of them were not property owners, which was discovered when the officials went over the petitions preparatory to issuing the necessary call for an election. Those who have been advocating the calling of another road bond election say that this oversight can and will be promptly remedied and that petitions containing more than the required 150 property owners' names will be filed with the county court on March court day.

A. C. HILL GETS R. F. D. NO. 3

Appointment Is Made When Sam J. Embury, Jr., Declines Place.

News was received from Washington Friday of the appointment of Arthur C. Hill, of Stanford, as Rural Route Carrier on Route No. 3 out of this city. Mr. Hill received this appointment from Congressman Helm when Sam J. Embury, Jr., decided not to accept the appointment which was tendered him some time ago. Embury is attending high school and will graduate with honors, and in order to take the rural route would have had to give up his school work, which he decided not to do. The position has been filled by a substitute for several months until a permanent appointment could be made. The position pays \$100 a month. Formal appointment was also made at Washington of Roger L. Hicks as rural route carrier at Hustonville, mention of which was made a short time ago in this paper. Both of the new appointees will start to work at once.

It was purchased by Lucien Moore for \$30.25. While it was going through the courts cost accumulated amounting to about eight hundred dollars. —Adair News.

SHORTAGE IN TOBACCO PREDICTED

Fertilizer Scarcity May Affect Other States—Figures Take Upward Jump at Danville.

A tobacco shortage, the like of which has not existed in a generation will probably face the United States next year. Now that the present season is nearing the close it has been discovered that not more than half a crop was produced in Kentucky the past year. This alone would not have been sufficient to cause anxiety but consternation was thrown into the tobacco raising sections of Virginia and North and South Carolina the past month when fertilizer companies announced an increase of over 200 per centum in all kinds of fertilizers due to war conditions and other influences which have served to produce a scarcity. Potash, one of the principal ingredients of first class fertilizers, has jumped to \$500 per ton. A South Carolina warehouseman, who has been in Danville this week, states that in the three states named not over half a crop can be produced the coming season, and that tobacco growers will increase other crops and cut in half their tobacco acreage. This situation, combined with the short Kentucky crop this year, is calculated to produce a great shortage next year. In the light of these developments there has been in the past few days a decided tendency to higher prices already. The indications are that this year will be the most profitable for the Kentucky growers in the history of the state, and it goes without saying that when the facts become well known a greatly increased acreage will be planted. Tobacco cannot be grown in North and South Carolina and Virginia unless from 600 to 800 pounds of fertilizer is used on each acre of land.

The Danville breaks have been the scenes of much activity this week, and many splendid averages have been realized. The Walnut Street House, under the splendid management of Jesse Overstreet and Allen Hieatt, has been making some sensational sales, as well as the People's House, under the direction of Col. Ike Dunn. These houses do a strictly commission business and the managers use their best energies to secure the biggest prices for the growers. Growers are warned to use great care in selecting their tobacco seed this year so that good, strong plants may be produced. Local warehousemen advise the planting of seeds sold by B. F. Kelly, of Lancaster; B. D. Lake, of Springfield; or Dr. Halley, of Lexington. A change in tobacco seed is as essential as a change in wheat and corn. About one-half million pounds of tobacco have been sold on the Danville breaks this week. Herewith are given a few of the high averages received:

Dear Sirs:—In reference to the Superior Grass Seed Drill used, for sowing of HEMP SEED will say that we used one last year for the sowing of 125 acres of hemp.

We used 25 pounds of hemp seed to the acre, and we find that is enough on the best land we have.

There is no doubt in our minds of this being the most satisfactory as well as the most certain way to sow hemp.

The seed germinate more evenly as they are covered all about the same depth, something, that cannot be done with any other machine we have ever seen. Yours truly,

The Club held daily meetings until it developed that the straight and narrow paths into the Beyond selected by its members are diverse as their "high-cuts" to the lodge meetings, hence Sunday is the one day the members are exempt from lodge attendance. The banquet always follows adjournment after business routine has been faithfully discharged. In review of past eventful year the chairman (who has evolved the fraternity from its infantile communism into an autocracy, gave his ponderous, portentous lucubrations and some speculations anent the social, political, religious, scientific and domestic status of the world, which must supply padding later.

BUSINESS IS BASED ON CONFIDENCE

A Theory Put Into Practice by Well Known Business Man

J. C. BRADY

A druggist has many opportunities to make lasting friends of his customers," said Mr. J. C. Brady, popular Rexall Pharmacist of Fall River, Mass. "The very nature of his business draws their confidence for little helpful suggestions on the matter of health. Many people have thanked me for recommending Rexall Orderlies as the best relief for constipation and its resultant ills. Put up in dainty candy tablet form, they are pleasant to the taste and make an ideal laxative for the home—for men, women and children alike."

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?

I so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

The pain goes at once. A grateful sufferer writes:—"I was suffering for three weeks with Chronic Rheumatism and Stiff Neck, although I tried many medicines, they failed, and I was under the care of a doctor. Fortunately I heard of Sloan's Liniment and after using it three or four days am up and well. I am employed at the biggest department store in S. F. where they employ from six to eight hundred hands and they surely will hear all about Sloan's Liniment."—H. B. Smith, San Francisco, Cal., Jan. 1915. At all druggists'.

STRANGE THING IN GREEN.

Quite an unusual thing occurred in Green county a short time ago. A surveying party was engaged in doing some work near the home of Jasper Paxton, a farmer living on Russell Creek, when one of the party, upon hearing a noise among a drove of hogs which Mr. Paxton was fattening, hastened to find the trouble. He was surprised to find that a hawk had caught one of the large hogs by the nose and was holding on tenaciously with one foot, the other foot having been torn from the hawk's body, it is supposed, by the bird having caught another hog by the nose and the two hogs having run in opposite directions tore one foot and leg from the hawk's body, leaving it able to hold on to but one hog. This it was doing with desperation when attacked with a stick and killed, thereby releasing the hog.—Green County Recorder.

TENNESSEE OFFICIAL WINS LONG FIGHT

J. W. Seaton of Linden, Clerk of the Circuit Court of the Twelfth Judicial District of Tennessee, was for years a sufferer from stomach troubles—in part a result of his confining work. He tried doctor after doctor. He tried medicines without end.

One day he took a dose of Mayr's Wonderful Remedy. He wrote:

"Your medicine is the best in the world for any form of stomach trouble. I am glad to say that after taking the full treatment I feel that I am well."

"I had very severe pains in my stomach all the time. One bottle of your medicine did me ten times as much good as all the doctors' medicine that I took for two years. My family physician told me that I would never be any better—today I am well. I have gained twenty-five pounds."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

BACHELORS DOWN IN CASEY

Are Only Waiting For Some Maiden To "Pop the Question."

Middleburg, Feb. 17.

Noticing your proposition in the Interior Journal to give a premium on marriage, and induce young ladies and ladies not so young, to take advantage of their leap year privileges and do a little proposing along matrimonial lines, we are thinking of starting the proposition here. There is no doubt that it will work. Our young men like the idea fine, and are ready to "tumble to the racket." Besides we have a bachelor and a widower that would raise no serious objection to being approached on the all important subject of matrimony—provided the proposition was made with an eye to business.

Neal Lane, a young man of the Grove section, is just recovering from a severe attack of pneumonia. His condition was quite critical at one time, and his friends despaired of recovery, but by the best of nursing, he pulled through.

The remains of Hezekiah Lucas, who died at his home near New Salem in Lincoln county, were brought here Saturday and buried in Middleburg Cemetery. Deceased was about 30 years of age, and a member of the New Salem Baptist church.

Waynesburg and Eubanks Baptist churches are to be congratulated on securing the services of Rev. E. W. Coakley as pastor. Bro. Coakley is an able expounder of the gospel, besides is a very Godly man. He conducted a revival meeting here some ten years ago and endeared himself to everyone he met, by his earnestness and devotion to the cause of his Master.

Bud Short is quite a sick man at his home at Yosemite and his family and friends are very anxious about him.

The cultivation of tobacco will not be extensively engaged in here this year. We hear of only a half dozen small crops that will be set.

Some of the street corner suggestions we hear on the question of "preparedness" are wise, but most of them are otherwise, and amusingly silly.

Walter Jones would be glad if those who appropriated his over-shoes to their own use while services were in progress at Green River Sunday a week ago, would return them at their earliest convenience, as he purchased them for his own special use.

Friday night as Heishel McDonald who drives the mail back from Duvall to Yosemite, was on his return trip near Phil, his horses became frightened at a dog and started to run. In his efforts to control them one of the lines broke and they pitched off a high embankment. The hack swapped ends and piled driver, horses and its cargo in the ditch below. Mr. McDonald says he was nearly covered up with the wreckage and one of his horses was laying across his legs. He was only slightly bruised, but wonders how he escaped with his life. Neither of the horses was seriously hurt which is also a great wonder. But what is the greatest wonder of all is that a man by the name of Russell was a passenger on the hack, and was asleep when the crash came and did not awake until he was pulled from the wreckage. This, we presume, is an exaggeration, and we give it as we got it. Mr. McDonald says it was a thrilling experience and does not wish to try it again.

People who use Peruna

Mrs. T. Frech, R. R. 1, Hickory Point, Tenn., writes: "I am happy to tell you that I am cured of catarrh. Having been afflicted with catarrh and stomach trouble for seven years, and after having tried four different doctors, who only relieved me for a little while, I gave up all hope of being cured. I was induced to try Peruna, and to my great surprise I am now entirely well. My health never was better."

FOR INDIGESTION

Mrs. W. R. Whitehead, R. R. 1, Pryor, Oklahoma, writes: "I am happy to tell you that I keep free from my old stomach trouble; feel no catarrhal symptoms at all. I am able to do my work, eat and drink what I want, and rejoice to know that I found a sure cure in your valuable medicine. I think it saved my life. This dear little babe was born Dec. 30, 1915 and departed this life Feb. 14, 1916. Its short life was passed in suffering. Funeral services were conducted Tuesday afternoon at Parlor Grove, by the pastor, Rev. G. W. Wright, after which the small remains were interred in Parlor Grove cemetery.

Eat a Square Meal and Not Fear Indigestion

There are hundreds of people in Stanford who were not the least bit surprised when they read in the Interior Journal that G. L. Penny is selling Mi-o-na on a guarantee to refund the money in case it did not relieve. This remarkable dyspepsia remedy will relieve the worst case of indigestion, headache, dizziness, or the general played-out condition afflicts every one suffering with stomach trouble. Mi-o-na does not simply relieve, it aims to cure.

G. L. Penny can tell you of many well known people in this city whom this remedy has restored to health, often after they have tried many other methods of treatment with little or no benefit. No other dyspepsia remedy has made so large a percentage of cures as Mi-o-na. It is so large that Penny's drug store stands ready to refund the price to any customer whom it does not help.

The best kind of advertising is the praise of a pleased customer, and there are hundreds in Stanford today praising Mi-o-na because it does what it is advertised to do. A few months ago they could eat nothing without wondering what the result would be. Since using Mi-o-na, they eat what they want and when they want with no fear of suffering. 14-16

Rev. W. C. Condit, pastor of the
First Presbyterian church at Ash-
land, has served that congregation
for nearly fifty years. He is greatly
beloved by the membership, some of
whom have doubtless never heard an-
other preacher. It may be all right
for one pastor to serve generation
after generation, but a "little change
now and then is relished by the best
of men," and no doubt there are
members who wish the Methodist
four-year-plan was applicable to the
Presbyterian church also. Preach-
ers who serve so long frequently fall
short of the great work that is ex-
pected of them and become common-
place with a certain element of the
congregation.

WHAT CATARRH IS

It has been said that every third
person has catarrh in some form.

Science has shown that nasal catarrh
often indicates a general weakness
of the body; and local treatments in
the form of snuffs and vapors do little,
if any good.

To correct catarrh you should treat its
cause by enriching your blood with the
oil-food in Scott's Emulsion which is a
medicinal food and a building- tonic, free
from alcohol or any harmful drugs. Try it.

Information has been received
here that the burial of Prof. B. J.
Pinkerton, former Lexington educa-

from pneumonia at the home of his
sister, Mrs. J. D. Price, at Ormond,

having been abandoned.

cinnati and Danville, for the con-
venience of its patrons. These cars
which will be of steel, will be on lo-
cals five and six, and on Blue Grass
specials twenty-seven and twenty-
eight.

In a letter from the I. J.'s good
friend, Mrs. Arch McWhorter, of
Fiatt, Ill., she says that neither she
nor her husband want to "miss a line
that appears in the I. J., and if we
live to be a hundred we do not want
to miss an issue." And the I. J.
hopes that she and her estimable
spouse will live to a hundred, too.

Dr. M. L. Pipes, of Moreland, left
this week for Edna, Texas, where he
has some land interests which he
will see after. He expects to be
gone about a couple of weeks or
more and will probably stop by Tu-
lane University at New Orleans, for
the purpose of taking a special post
graduate course in the medical de-
partment of that great institution.

L. R. Hughes is back from a sev-
eral days' trip to Louisville and In-
diana. He was an expert witness on
land values in the big suit of the L.

court at Louisville early in the
week. The L. & N. obtained a judg-
ment from the Western Union for
\$5,000 for use of its right of way
by the telegraph company.

Prof. Walter Moser, principal of
the winter school at McKinney spent
Sunday with friends in Lexington.
Prof. Moser is having much success
with the private school he has been
conducting at McKinney since the

seven pupils are enrolled which is a
splendid attendance. After the school
closes in April, Prof. Moser plans to
take a course at the Eastern State
Normal at Richmond, and prepare
himself for still better work in his
chosen profession.

At the week-end adjournments of
the Legislature Senator Charles F.

highways of his section. He is vice-

Circuit Clerk Marshall C. Newland
wife and baby, motored to Frankfort
Thursday to attend a joint meeting
of the Circuit Clerks and the Sher-
iffs of the state, who met to consid-
er bills affecting their offices which
are now pending in the legislature.
The circuit clerks want a law to re-
quire litigants to deposit a certain
per cent of the costs when a suit is
filed, and also to require the defend-
ant to an action at law to make a
deposit when an answer is filed. The
sheriffs are protesting against the
bill now before the assembly which
changes the time of payment of taxes
from December to March and June.

The town of Mt. Sterling was in
total darkness Thursday for several
hours, and a house cat was the cause.
Eight for Winchester and Mt. Ster-
ling is furnished by a central power
plant at Lexington. When the
lights suddenly went out at Mt.
Sterling a trouble crew left Win-
chester, and after several hours of
diligent search discovered the dead
feline burned to the pole and en-
tangled in the wires, making a cross
circuit. It is supposed the cat was
seeking safety at the top of the pole
from a dog that had "treed" it.

Take "Cascarets" If Headachy, Bilious and Constipated!

Best for Liver and Bowels, Bad
Breath, Bad Colds, Sour
Stomach.

Get a 10-cent box.

Sick headache, biliousness, coated
tongue, head and nose clogged up
with a cold—always trace this to tor-
pid liver; delayed, fermenting food
in the bowels or sour, gassy stom-
ach.

Poisonous matter clogged in the
intestines, instead of being cast out
of the system is re-absorbed into the
blood. When this poison reaches the
delicate brain tissue it causes conges-
tion and that dull, throbbing, sick-
ening headache.

Cascarets immediately cleanse the
stomach, remove the sour, undigest-
ed food and foul gases, take the ex-
cess bile from the liver and carry
out all the constipated waste matter
and poisons in the bowels.

A Cascaret tonight will surely
straighten you out by morning. They
work while you sleep—a 10-cent box
from your druggist means your head
clear, stomach sweet and your liver
and bowels regular for months. 14-1

W. M. Poynter, one of the leading
business men of Mt. Vernon, and a
long-time reader of the I. J., was in
town early this week on business and
renewed for his paper for another
year.

A. Ricci, of Richmond, was here
Thursday, returning from Crab Or-
chard, where he rented the Sanders
store-room, in which he will open a
restaurant and confectionary about
the first of March.

The I. J.'s good friend J. H. Bus-
tle was in town early in the week
and paid for three subscriptions to
"the cheapest and best," which he
says is so good he wants all of his
family to receive it. Mr. Bustle had
already ordered the paper sent to his
brother in Normal, Ill., which makes
the fourth subscription he has paid
for this year. Friends like Mr. Bus-
tle are hard to find and when they
are found, will do to tie to.

Col. S. M. Chandler, of the Cedar
Creek section, was in town Thursday
and paid up a couple of years for
the I. J., which he says they can't
do without in his section. Col.
Chandler says that his little grand-
son, the son of Dick Chandler, who
was bitten by a mad dog, seems to
have been completely cured in ev-
ery way from the dangerous injury
since his treatment at the Pasteur
Institute at Bowling Green. Dick's
wife has been on the sick list for
some time, and this popular young
East Ender has had more than his
share of hard luck.

**25 Cents Destroys
Your Dandruff and
Stops Falling Hair**

Save Your Hair! Make It Thick,
Wavy and Beautiful—
Try This!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few week's use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp. 14

MRS. GLORE TO VISIT D. A. R.

Local Chapter to Entertain for State Regent February 22.

One of the most delightful affairs to be given here in some time will be a social afternoon on Washington's Birthday, next Tuesday, Feb. 22, given by the Logan Whitley Chapter, D. A. R., of Stanford in honor of Mrs. W. Scott Glore, of Danville, State Regent. A luncheon will be given at The Princess, and the afternoon will be made an especially attractive one for the members and their guests, who in addition to Mrs. Glore, will include, Mrs. John Farra, Regent of the Lancaster chapter, and Miss Mary Shelby, ex-Regent of the Danville chapter. Mrs. Glore has informed members of the local chapter that she will present them with a handsome silver mounted gavel upon the occasion of her visit here.

A delegation of eight members of Logan Whitley chapter went to Lancaster Thursday afternoon to attend the reception to Mrs. Glore given by the John Malcolm Miller chapter of that city. The affair was held at the home of Mr. and Mrs. W. O. Rigney, parents of Mrs. Wood Burnside, a member of the chapter. The home was attractively decorated, and a delicious luncheon was served. Mrs. Glore on this occasion presented the Lancaster D. A. R. with a silver mounted gavel. Those who motored over from Stanford were Mesdames Shelton Sauffey and J. C. McClary, Misses Esther Burch, Jennie Warren, Levisa Harris, Sue Taylor Engleman, Sue Rout and Nancy Yeager.

**Toxication Is
Self Poisoning**

Few Realize Causes of This Form of Ailment.

Few realize what a great number of people, among those who live in such cities as this, suffer from auto-intoxication. This condition, which has caused so much discussion, is nothing more nor less than a slow self-poisoning of vital organs. It is the very foundation of many ailments.

When the organs become weakened from any cause they are unable to throw off the accumulations of waste matters. The putrefactive germs soon begin to get in their deadly work and the sufferer finally is a direct victim of poisons generated right in his own system.

Among the common results of this auto-intoxication are jaundice, hard cold, constipation, indigestion and fermenting of food, biliousness, sick headaches, backaches, diarrhea, dizziness, pains in the kidney region and nervousness.

Tanlac is designated especially to combat this condition of congestion brought about by auto-intoxication. Its properties as a tonic and invigorant tend to throw off the poisons and to spur the organs back to needed efforts—in short, to clean them and make them normal again.

To an automobilist it might be said that Tanlac acts as a spark plug in the human mechanism. It starts the vital engines and then keeps them going at a properly regulated speed.

Tanlac is now obtainable in Stanford at G. L. Penny's and at Middleburg at W. C. Bryant's, where it is being daily explained during the constantly increasing demand. 14-1

GARNER PRICE SUCCUMBS

Popular East End Trader and Farmer Died Thursday Night.

His many friends here were greatly grieved Friday morning to learn that Garner Price had died at his home at Crab Orchard at seven o'clock Thursday evening. Mr. Price had suffered for several months from necrosis in both of his feet, the left one having been amputated some time ago in an effort to check the gangrene which set in. Just how the members became affected is unknown. One foot had to be removed, and afterward the infection spread to the other, and thence up his limb to his body, causing his death. The deceased was 52 years of age and was one of the best known and liked farmers and stock men in the East End of the county. He was a member of the Christian church. A wife and nine children survive, the sons being James, Devereet, Ben, Omar, Ray, and Garner Price, Jr., and the daughters, Mrs. Lily Howard, and Misses Lora and Pearl Price. Funeral services were conducted Friday afternoon at three o'clock, interment being in the Crab Orchard cemetery.

High School News

The Carnival given last Friday was quite a success and a large crowd attended and all seemed to thoroughly enjoy themselves. The supper furnished by the Domestic Science Department was especially good, which was prepared under the supervision of Miss Lucille Gastineau, who deserves much credit for her good work. The sideshows, etc., were also extra well gotten up and everyone feels much indebted to Miss Esther Burch, who oversaw that part. The Domestic Science Department made \$25.95, which will be used to pay grocery accounts against that department. The Carnival proceeds were \$42.30. After all expenses have been paid the balance will be used to meet the bills incurred by furnishing a room for the Expression Department. This is one of the two plays Miss Burch is to give this year for the use of a room in the graded school building.

An improvement has been made on the boys' side of the school building. The part leading down into the furnace room has been covered with a roof and the wall has been a few feet higher, which makes it much better and more convenient than before. Those absent Thursday were: Class '18—Bessie McCormack and Annie Rogers Powell; Class '16—Lewis Proctor and Elizabeth Stagg; Class '19—Margaret Davison, Sylvia Farmer and Sara Sampson; Class '17—Elizabeth Hunn.

BABY KILLED IN ACCIDENT

The sad news was received from Texas this week of the tragic death of T. C. Jasper, Jr., the eight-months' old grandson of T. C. Jasper, who formerly lived in Lincoln county and has many friends here who will sympathize with the family in their loss. A Texas paper said of the unfortunate affair: "On the Dallas road, six and a half miles north of Waco, an automobile containing a touring party, en route from Plano to Temple, turned turtle Saturday afternoon causing the death of T. C. Jasper, Jr., aged eight months. The parents of the dead child, Mr. and Mrs. T. Ray Jasper of Plano, and the driver of the car, Taylor Jackson, of Renner, were painfully bruised. They were coming toward Waco, when they met two men in a buggy going in the opposite direction, who were leading another horse and buggy. Mr. Jackson turned out for the first horse, but failed to see the second one until he was within a short distance of it. To avoid striking the horse he made a sharp turn. The front spring broke and the car turned turtle several times, throwing the occupants out. The baby's skull was fractured and death resulted instantly."

THROAT PARALYSIS FATAL

Simeon L. Cook, aged about 70 years, died at his home near Willow Grove about eight o'clock Thursday morning, after a long illness of paralysis of the throat. The malady affected Mr. Cook that he was unable

The funeral services were conducted at Danville today.

HEARD ABOUT TOWN.

John Blanton, a well known resident of Moreland, died at his home there Tuesday of heart trouble. He is survived by his wife, Mr. Blanton lived in a house back of the Methodist parsonage. Many friends will mourn his demise.

J. E. Miracle, of the Green River section, was in town Thursday with his huckster wagon. He and his brother are operating now under the firm name of J. E. Miracle & Bro., and are doing a big business buying produce, poultry, etc., from the farmers.

Easter comes later this year than it has since 1905. April 23 is the date this year. Easter Sunday was the same date in 1906. It will not come as late as April 23 again until 1943, when it will be two days later. April 25. In 1886 Easter Sunday fell on April 25, the latest date for Easter from 1801 until 2000. In the year 2000 Easter Sunday will be on April 23. In the retail business world Easter furnishes the greatest spring stimulus. Spring will almost be over by the time Easter arrives this year, and the day will almost mark the beginning of summer.

I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."

—Mrs. ROBT. STOEHL, Moore Avenue, Washington Park, Illinois.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound.

Doctor Saves a Blacksmith

Some time ago I was taken with Kidney trouble which caused me to give up my work as blacksmith. I lost my appetite and could not sleep from the dreadful pains that would come over me, from my kidneys. I was treated by a physician for about three months. He could not help me so finally he prescribed Dr. Kilmer's Swamp-Root. I started taking some and before I had finished taking the first bottle I began to eat and sleep better than I had in a long time. I continued to take same until I was entirely cured and took on considerable weight.

I am now back working at my trade again and never felt better in my life. I appreciate what Swamp-Root has done for me and will recommend it to anyone who suffers with their kidneys. When physicians fail to give relief and then prescribe Swamp-Root, they sure know its merits. I am,

Very truly yours,

Every Family Needs This Splendid Remedy

Specialists have agreed that Catarrh is an infection of the blood. Once you get your blood cleansed of the Catarrh poisons you will be relieved of Catarrh—the dripping in the throat, hawking and spitting, sores in the nostrils, and the disagreeable breath. It was caused, in the first place, because your impoverished blood was easily infected. Possibly a slight cold or contact with some one who had a cold. But the point is—don't suffer with Catarrh—it is not necessary. The remedy S. S. S., discovered over 40 years ago, tested, true and tried, is always obtainable at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If you are a long-standing case, be sure to write the Swift Specific Co., Atlanta, Ga., for free medical advice. They will tell you how this purely vegetable blood tonic cleanses the impurities from the blood by literally washing it clean.

MULE DISEASE IN ATLANTA

Which Is Affecting Local Markets, Is Not Understood.

The deadly mule disease which is now prevalent in Atlanta, Ga., is well known among the Kentucky mule feeders to exist, but neither do they, nor the authorities in charge at Atlanta, seem to know the exact diagnosis, says the Farmers' Home Journal.

The disease is recognized as the similar malady which broke out in Atlanta, St. Louis and Memphis three years ago and caused the sudden death of a large number of mules on those markets, but it is not the nature of the disease which is causing so much concern among the Kentucky feeders at the present time as it is what effect this outbreak is going to have on the market.

In talking with a representative of probably the largest mule firm in Southern Kentucky the writer got his views of the subject which should be as nearly authentic as coming from any other authoritative source in this State. In discussing the situation he stated that the disease had, without a doubt, demoralized the Southern market to a certain extent, in that it destroyed the Atlanta ex-

change, but as to the Kentucky market suffering any ill effects, such has not yet been the case and most probably will not be. The Southern buyers are coming into Tennessee and Kentucky and are buying directly from the Kentucky merchants instead of buying these mules in the Atlanta exchange. The extensive mule buyers of Kentucky are buying up the mules from the producers and are weekly receiving buyers from Georgia, Florida and South Carolina which are new to their trade, on account of the Atlanta exchange being destroyed.

The mule market at the present time is very strong and the buyers do not question any price within reason when they find an animal which measures up to requirements, but extra high class mules are scarce and the farmers are asking top prices for mediocre animals, which to some extent is holding down the number of sales. The boll-weevil in Alabama has destroyed the market for big, plain Alabama mules, but the more finished members of the highest family are selling high.

The outbreak of glanders among the mules now at Newport News, Va., awaiting shipment to the British government, is also a matter which may affect the market. If the government orders these mules killed it would mean a slaughter of 30,000 or 40,000 mules which would rapidly

have to be replaced. If this should happen it is expected that the farmers and feeders of Kentucky will receive prices for their mules which will eclipse all highwater marks of former years.
